## **PRESENTATION OF INFORMATION AND OTHER INFORMATION**

---

EBITDA and the related ratios presented in this Prospectus are supplemental measures of our performance and liquidity that are not required by or presented in accordance with the IFRS and MFRS. Furthermore, EBITDA is not a measure of our financial performance or liquidity under the IFRS and MFRS and should not be considered as an alternative to net income, operating income or any other performance measures derived in accordance with the IFRS or MFRS or as an alternative to cash flows from operating activities or as a measure of liquidity. In addition, EBITDA is not a standardised term, and hence, a direct comparison of EBITDA between companies may not be possible. Other companies may calculate EBITDA differently from us, limiting its usefulness as a comparative measure.

We believe that EBITDA may facilitate comparisons of operating performance from period to period and company to company by eliminating potential differences caused by variations in capital structures (affecting interest expense and finance charges), tax positions (such as the impact on periods or companies of changes in effective tax rates or net operating losses), the age and booked depreciation and amortisation of assets (affecting relative depreciation and amortisation expenses). EBITDA has been presented because we believe that it is frequently used by securities analysts, investors and other interested parties in evaluating similar companies, many of whom present such non-IFRS and non-MFRS financial measures when reporting their results. Finally, EBITDA is presented as a supplemental measure of our ability to service debt. Nevertheless, EBITDA has limitations as an analytical tool, and prospective investors should not consider it in isolation from or as a substitute for analysis of our financial condition or results of operations, as reported under the IFRS and MFRS. Due to these limitations, EBITDA should not be considered as a measure of discretionary cash available to invest in the growth of our business.
