## 12. FINANCIAL INFORMATION (CONT'D)

### 12.3 MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following management's discussion and analysis of our Group's financial conditions and results of operations for the Financial Years/Period Under Review should be read in conjunction with the combined financial statements of our Group and the accompanying notes as set out in the Accountants' Report which are included in **Section 13** of this Prospectus.

There are no accounting policies that are peculiar to our Group due to the nature of the business and industry in which we are involved. Please refer to **Note 2** of the Accountants' Report as set out in **Section 13** of this Prospectus for further details on the accounting policies of the Group.

#### 12.3.1 Significant accounting estimates and judgements

The operation of our business requires us to rely on certain accounting estimates and judgements, which are assessed on an on-going basis and are based on experience and relevant factors, including expectations of future events that are believed to be reasonable under the circumstances. The actual results may differ from the judgements, estimates and assumptions made, and will seldom equal the estimated results. These include:

- (i) Determination of the lease term, where we consider all facts and circumstances that give rise to an economic incentive to exercise an extension option, or not exercise a termination option;
- (ii) Estimation of the incremental borrowing rate for calculating right-of-use assets and lease liabilities, where we use observable inputs such as market interest rates and asset yields when available, and make lessee-specific adjustments such as the entity's credit rating; and
- (iii) Revenue from contracts with customers, where we estimate the portion of package value likely to be redeemed after the validity period based on historical utilisation trends. This estimated amount remains classified as contract liabilities at the end of the contract term and is recognised as revenue systematically in the future based on the historical utilisation trend.

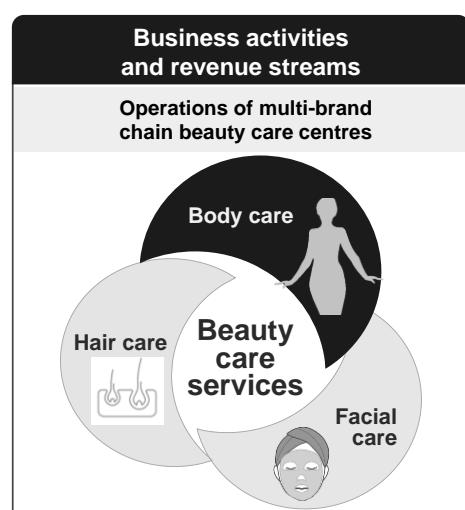

Please refer to **Note 2(d)** of the Accountants' Report as set out in **Section 13** of this Prospectus for further details.

#### 12.3.2 Overview of our operations

We operate a multi-brand chain of beauty care centres in Malaysia and Singapore where we offer a range of beauty care services, including body, facial and hair care services. These services are complemented by our beauty care and related products.

The revenue from the provision of beauty care services is recognised at a point-in-time when the services are rendered. Billed amounts for services that have not been rendered as at the end of the reporting period are recognised as deferred revenue and classified as contract liabilities.

Meanwhile, revenue from the sales of products (including beauty care and related products) is recognised at a point-in-time when the risk and rewards of ownership of the goods have been transferred to the customer.

## 12. FINANCIAL INFORMATION (CONT'D)

Similarly, the billed amounts for goods that have not been delivered to customers as at the end of the reporting period are recognised as deferred revenue and classified as contract liabilities.

In line with our business model, we often sell our services in package deals, which require multiple visits by customers to our beauty care centres. These packages bundle various beauty care services and related products, and the customer is required to pay the full package amount in advance. The packages are generally valid up to 12 months from the date of purchase. We may, at our discretion, allow customers to redeem unutilised package value beyond the validity period.

The non-refundable upfront payments received in advance, prior to the fulfilment of performance obligations, is recognised as deferred revenue and included under contract liabilities. These contract liabilities are recognised as revenue within the subsequent 3 financial years after the expiry of the 12-month validity period. We estimate the portion of package value likely to be redeemed after the validity period, based on historical utilisation trends.

For the recognition of revenue and contract liabilities, we primarily adopt a portfolio approach that groups contracts with similar characteristics in accordance with MFRS 15. We review the utilisation pattern based on the services rendered to customers over a period of time and the utilisation pattern will be reassessed against the historical trends and updated, if required. Accordingly, the value of contract liabilities and recognition of revenue are reassessed periodically based on the change in the utilisation pattern. For further details on the portfolio approach practical expedient, please refer to **Note 24** of the Accountants' Report as set out in **Section 13** of this Prospectus.

For the Financial Years/Period Under Review, our beauty care centre operations were primarily in Malaysia. All of our revenue was derived from our beauty care services operations in Malaysia for FYE 2022 and FYE 2023, prior to the commencement of our beauty care services operations in Singapore in 2024. For FPE 2025, revenue from our beauty care services operations in Malaysia accounted for 98.89% of our total revenue, while the remaining 1.11% was derived from beauty care centre operations in Singapore.

The sales to our customers in Malaysia are denominated in RM and financial statements of our operations in Malaysia are prepared in RM. The sales to our customers in Singapore are denominated in SGD and financial statements for our operations in Singapore are prepared in SGD as the functional currency.

Our combined financial statements are presented in RM, which is our Group's functional and presentation currency.

The foreign currency exchange rates used in our Group's combined financial statements for conversion of values denominated in foreign currencies, namely SGD to RM are summarised in the following table:

Average exchange rate of RM relative to SGD	FYE 2024		FPE 2025	
	RM	RM	RM	RM
SGD1.00 <sup>(1)</sup>		3.4208		3.3068

(Source: *Bank Negara Malaysia*)

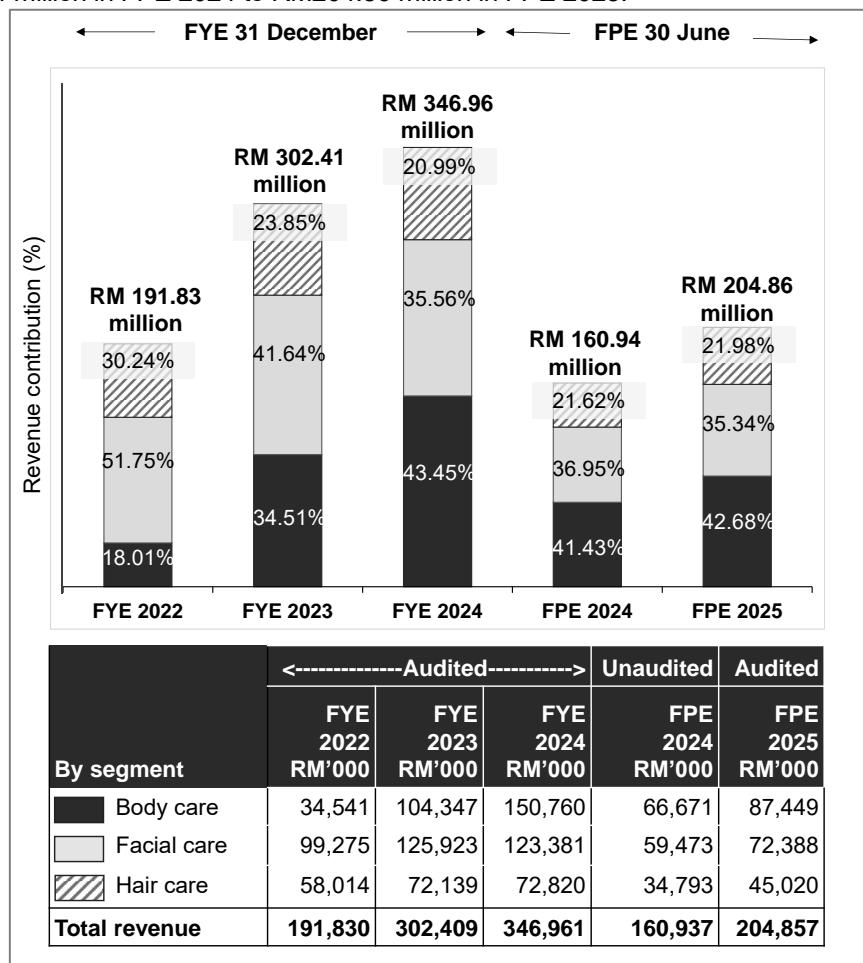

**Note:**

(1) Our beauty care services operations in Singapore commenced in August 2024.

Please refer to **Note 29 (c)** of the Accountants' Report set out in **Section 13** of this Prospectus for further details on the foreign currency risk.

For the Financial Years/Period Under Review, the SCSG of our beauty care centres that were in operation for at least 2 consecutive full financial years/periods is as follows:

SCSG <sup>(1)</sup>	Growth rate (%)		
	FYE 2022 to FYE 2023	FYE 2023 to FYE 2024	FPE 2024 to FPE 2025

- Northern region	25.13	1.31	26.32
<b>Number of same-centres included in the calculation <sup>(2)</sup></b>	<b>21</b>	<b>33</b>	<b>43</b>

#### Notes:

(1) The SCSG is calculated only for centres that have 2 consecutive full financial years/periods of operations (referred to as "qualified centres") and is calculated as follows:

- (i) Sum of total revenue from all qualified centres for the specified period (referred to as "B");
- (ii) Sum of total revenue from all qualified centres for the period before the specified period (referred to as "A");
- (iii) Same-centre growth for the specified period =  $((B - A)/A) \times 100\%$ ; and
- (iv) Note that the number of centres for "A" and "B" is the same.

(2) The number of centres included in the same centre growth must have at least 2 consecutive full financial years/periods operations.

We recorded SCSG of 24.00% for FYE 2023. The high SCSG was primarily driven by higher number of beauty care services provided at existing centres during the post-COVID period, mainly from *One Doc x Hair Doc* operations in Malaysia.

We recorded SCSG of 2.15% for FYE 2024, compared to the SCSG of 24.00% for FYE 2023. The decline in SCSG for FYE 2024 was primarily attributed to the decrease in revenue from the existing beauty care centres for the *One Doc x Hair Doc* operations in Malaysia, as reflected in the lower average revenue per existing centre. Under the *One Doc x Hair Doc* operations, the average revenue per existing centre decreased from RM9.07 million per centre in FYE 2023 to RM8.33 million per centre in FYE 2024, mainly arising from a decrease in sales of facial care and related products as well as lower number of high-priced light pulse services provided in FYE 2024.

## 12. FINANCIAL INFORMATION (CONT'D)

In FPE 2025, we recorded SCSG of 22.21%, mainly attributed to higher number of beauty care services provided at existing centres, primarily from *Slim Doc* and *One Doc x Hair Doc* operations. This was reflected in the growth in average revenue per existing centre of the overall beauty care centre operations, which increased from RM3.64 million per centre in FPE 2024 to RM4.45 million per centre in FPE 2025.

### **FYE 2023 compared to FYE 2022**

Our total revenue increased by RM110.58 million or 57.64% to RM302.41 million in FYE 2023 (FYE 2022: RM191.83 million), which was attributed to higher revenue from our existing beauty care centres including *Slim Doc* and *One Doc x Hair Doc* operations. This was reflected in our SCSG of 24.00% for FYE 2023. In addition, the increase in revenue was also contributed by the revenue generated from the 10 new beauty care centres opened in FYE 2023.

#### **(i) Body care segment**

Our revenue from the body care segment increased by RM69.81 million or 202.10% to RM104.35 million in FYE 2023 (FYE 2022: RM34.54 million). This was mainly attributed to higher revenue from our existing *Slim Doc* centres, which commenced operations in FYE 2022.

Our revenue growth was also partly contributed by additional revenue from new beauty care centres opened during FYE 2023, comprising 5 new *Slim Doc* centres in the southern, northern and central regions, as well as 4 new *Perfect Doc* centres in the central region.

The increase in revenue was reflected in the higher number of body care services provided, which increased by 116.16% to 155,329 sessions in FYE 2023 (FYE 2022: 71,860 sessions).

The increase in revenue was complemented by higher sales generated from body care and related products, which increased by RM12.74 million or 373.18% to RM16.16 million in FYE 2023 (FYE 2022: RM3.42 million). This was mainly driven by sales from both existing and new *Slim Doc* centres opened in FYE 2023, as discussed above.

#### **(ii) Facial care segment**

Our revenue from the facial care segment increased by RM26.65 million or 26.84% to RM125.92 million in FYE 2023 (FYE 2022: RM99.28 million). This was mainly attributed to higher revenue from our existing *One Doc x Hair Doc* centres, as reflected in the SCSG of 24.00% from *One Doc x Hair Doc* operations in FYE 2023.

Our revenue growth was also partly contributed by additional revenue from new beauty care centres opened during FYE 2023, comprising 4 new *Perfect Doc* centres and 1 new *One Doc x Hair Doc* centre in the central region.

The increase in revenue was reflected in the higher number of facial care services provided, which increased by 12.32% to 149,291 sessions in FYE 2023 (FYE 2022: 132,917 sessions).

The increase in revenue was also complemented by higher sales generated from facial care and related products, which increased by RM10.41 million or 77.61% to RM23.83 million in FYE 2023 (FYE 2022: RM13.42 million). This was mainly driven by higher sales from our existing beauty care centres.

Our revenue from the hair care segment increased by RM14.13 million or 24.35% to RM72.14 million in FYE 2023 (FY2022: RM58.01 million). This was mainly attributed to higher revenue from our existing *One Doc x Hair Doc* centres, as well as additional revenue from services provided at the new *One Doc x Hair Doc* centre as discussed above. On a geographical market basis:

- (i) Revenue from the central region increased by RM70.65 million or 55.66% to RM197.57 million in FYE 2023 (FY2022: RM126.92 million). This was mainly attributed to higher revenue from our existing *Slim Doc* and *One Doc x Hair Doc* centres providing body care, facial care and hair care services.
- (ii) In addition, the increase was also partly attributed to the opening of 6 new beauty care centres comprising 4 *Perfect Doc* centres, 1 *Slim Doc* centre and 1 *One Doc x Hair Doc* centre in this region in FYE 2023.
- (iii) Revenue from the southern region increased by RM24.31 million or 59.43% to RM65.23 million in FYE 2023 (FY2022: RM40.92 million). - (iv) Revenue from the northern region also increased by RM15.62 million or 65.10% to RM39.61 million in FYE 2023 (FY2022: RM23.99 million), which was mainly attributed to higher revenue from our existing *Slim Doc* and *One Doc x Hair Doc* centres providing body care, facial care and hair care services. In addition, the increase was partly attributed to the opening of 2 new *Slim Doc* centres in this region in FYE 2023.

### FYE 2024 compared to FYE 2023

Our total revenue increased by RM44.55 million or 14.73% to RM346.96 million in FYE 2024 (FY2023: RM302.41 million), mainly attributed to higher revenue from our existing beauty care centres primarily from *Slim Doc* operations. This was also reflected in our SCSG of 2.15% for FYE 2024. In addition, the increase in revenue was also contributed by the net increase of 5 beauty care centres in FYE 2024.

### (i) Body care segment

Our revenue from the body care segment increased by RM46.41 million or 44.48% to RM150.76 million in FYE 2024 (FY2023: RM104.35 million). This was mainly attributed to higher revenue from our existing *Slim Doc* centres, as reflected in the SCSG of 23.12% from *Slim Doc* operations in FYE 2024.

Our revenue growth was also partly contributed by additional revenue from 3 new beauty care centres opened in the central and southern regions during FYE 2024, comprising 1 *Slim Doc* centre and 2 *Perfect Doc* centres.

## 12. FINANCIAL INFORMATION (CONT'D)

The increase in revenue was reflected in the higher number of body care services provided, which increased by 28.71% to 199,920 sessions in FYE 2024 (FYE 2023: 155,329 sessions).

Our revenue from the facial care segment decreased by RM2.54 million or 2.02% to RM123.38 million in FYE 2024 (FYE 2023: RM125.92 million). This was mainly attributed to lower revenue from our existing *One Doc x Hair Doc* centres, as reflected in the negative SCSG of 8.10% for FYE 2024.

The lower revenue from our facial care segment was due to:

- (a) decrease in revenue from facial care services by RM0.97 million or 0.95% to RM101.13 million in FYE 2024 (FYE 2023: RM102.10 million), mainly attributed to a shift towards lower-value facial care services. In FYE 2024, revenue from facial care services decreased despite the number of facial care services increasing by 11.18% to 165,981 sessions in FYE 2024 (FYE 2023: 149,291 sessions). This was reflected in a decrease of 3.06% in the number of high-priced light pulse services provided.
- (b) decrease in revenue from facial care and related products by RM1.57 million or 6.59% to RM22.26 million in FYE 2024 (FYE 2023: RM23.83 million), associated with the lower sales from our existing *One Doc x Hair Doc* centres.

The lower revenue from our existing beauty care centres was partially moderated by the revenue generated from the 4 new beauty care centres opened in Malaysia in FYE 2024, comprising 2 *One Doc x Hair Doc* centres in the central region and 2 *Perfect Doc* centres in the central and southern regions, as well as 1 new *One Doc x Hair Doc* centre in Singapore opened in FYE 2024.

### (iii) Hair care segment

Our revenue from the hair care segment increased by RM0.68 million or 0.94% to RM72.82 million in FYE 2024 (FYE 2023: RM72.14 million). The increase in revenue was partially offset by a decrease in revenue from hair care and related products by RM1.28 million or 7.49% to RM15.76 million in FYE 2024 (FYE 2023: RM17.03 million). This was mainly associated with lower sales from our existing *One Doc x Hair Doc* centres as discussed above.

- (i) Revenue from the central region increased by RM23.09 million or 11.69% to RM220.65 million in FYE 2024 (FYE 2023: RM197.57 million), which was mainly attributed to higher revenue from our existing *Slim Doc* and *Perfect Doc* centres providing body care and facial care services.

## 12. FINANCIAL INFORMATION (CONT'D)

### Note:

(1) Our beauty care services operations in Singapore commenced in August 2024.

Our cost of sales mainly comprises the following:

#### (i) Staff costs

Staff costs accounted for 52.70% (RM18.90 million), 54.63% (RM27.28 million), 54.35% (RM34.24 million), 59.24% (RM15.64 million), and 59.68% (RM20.38 million) of our total cost of sales for FYE 2022, FYE 2023, FYE 2024, FPE 2024 and FPE 2025 respectively. Our staff costs mainly consist of salaries, bonus, allowances and statutory contribution for employees involved in our beauty care centre operations.

In FYE 2023, our staff costs increased by RM8.38 million or 44.33% to RM27.28 million in FYE 2023 (FYE 2022: RM18.90 million). This was mainly attributed to the increase in headcount from 332 in FYE 2022 to 430 in FYE 2023 to cater for the increase in number of beauty care centres as well as the beauty care services provided during FYE 2023.

In FYE 2024, our staff costs increased by RM6.96 million or 25.49% to RM34.24 million in FYE 2024 (FYE 2023: RM27.28 million). This was mainly attributed to the increase in headcount from 430 in FYE 2023 to 513 in FYE 2024, to cater for the increase in number of beauty care centres as well as the beauty care services provided during FYE 2024.

In FPE 2025, our staff costs increased by RM4.74 million or 30.31% to RM20.38 million in FPE 2025 (FPE 2024: RM15.64 million). This was mainly attributed to the increase in headcount from 464 in FPE 2024 to 561 in FPE 2025, to cater for the increase in number of beauty care centres as well as the beauty care services provided during FPE 2025.

#### (ii) Input products and consumable supplies

Our costs for input products and consumable supplies accounted for 35.22% (RM12.63 million), 30.82% (RM15.39 million), 26.74% (RM16.85 million), 27.61% (RM7.29 million) and 30.36% (RM10.37 million) of our total cost of sales for FYE 2022, FYE 2023, FYE 2024, FPE 2024 and FPE 2025 respectively. Our input product costs comprise topical products used during our beauty care services as well as beauty care and related products for retail sales, while consumable supplies include, among others, sanitising wipes, wrapping rolls, disposable bed sheet, disposable undergarments, and cotton pads.

In FYE 2023, our costs for input products and consumable supplies increased by RM2.76 million or 21.83% to RM15.39 million in FYE 2023 (FYE 2022: RM12.63 million). This was mainly due to higher usage, following the expansion of our beauty care centre operations mainly *Slim Doc* and *Perfect Doc* centres, as well as the SCSG of our *One Doc x Hair Doc* operations. This was also reflected in the overall revenue growth of 57.64% in FYE 2023.

In FYE 2024, our costs for input products and consumable supplies increased by RM1.45 million or 9.44% to RM16.85 million in FYE 2024 (FYE 2023: RM15.39 million). This was mainly due to higher usage, following the expansion of our beauty care centre operations across all brands, as well as the SCSG of our *Slim Doc* operations. This was also reflected in the overall revenue growth of 14.73% in FYE 2024.

In FPE 2025, our costs for input products and consumable supplies increased by RM3.08 million or 42.22% to RM10.37 million in FPE 2025 (FPE 2024: RM7.29 million). This was mainly due to higher usage, following the SCSG across all brands. This was also reflected in the overall revenue growth of 27.29% in FPE 2025.

In FYE 2023, depreciation costs increased by RM2.80 million or 68.25% to RM6.91 million in FYE 2023 (FYE 2022: RM4.11 million), mainly due to additional capital expenditure on machineries and equipment in both new and existing beauty care centres to support the provision of our beauty care services.

In FYE 2024, depreciation costs increased by RM4.78 million or 69.16% to RM11.69 million in FYE 2024 (FYE 2023: RM6.91 million), mainly due to additional capital expenditure on machineries and equipment in both new and existing beauty care centres to support the provision of our beauty care services.

In FPE 2025, depreciation costs decreased by RM0.20 million or 5.77% to RM3.23 million in FPE 2025 (FPE 2024: RM3.43 million), mainly due to certain machineries and equipment being fully depreciated.

The upkeep costs for our machineries accounted for 0.63% (RM0.23 million), 0.71% (RM0.36 million), 0.36% (RM0.23 million), 0.15% (RM0.04 million) and 0.49% (RM0.17 million) of our total cost of sales for FYE 2022, FYE 2023, FYE 2024, FPE 2024 and FPE 2025 respectively. Our upkeep costs remained relatively consistent which is less than 1.00% for the Financial Years/Period Under Review.

**Notes:**

- (1) Our beauty care services operations in Singapore commenced in August 2024.
- (2) The gross loss from our *Perfect Doc* operations was due to operating costs associated with the opening of 4 new centres, which were not offset by revenue as they were still in the initial stages of gaining traction during FYE 2023.
- (3) The gross loss from our *One Doc x Hair Doc* operations in Singapore was due to the purchases of consumable supplies prior to the opening of a new beauty care centre.

### **FYE 2023 compared to FYE 2022**

Our GP increased by RM96.51 million or 61.88% to RM252.47 million in FYE 2023 (FYE 2022: RM155.96 million). Our GP margin improved from 81.30% in FYE 2022 to 83.49% in FYE 2023. This was mainly attributed to the following:

#### **(i) Body care segment**

GP from our body care segment increased by RM59.75 million or 227.02% to RM86.06 million in FYE 2023 (FYE 2022: RM26.32 million), mainly driven by higher revenue generated from our existing and new *Slim Doc* centres.

GP margin for our body care segment improved from 76.19% in FYE 2022 to 82.48% in FYE 2023, mainly driven by higher-value body care services provided coupled with higher number of services provided during the financial year. The average value per body care service provided increased by 31.18% in FYE 2023, following the phase-out of promotional pricing introduced during the opening of our *Slim Doc* centres in FYE 2022, as well as an increase in the proportion of higher-value body care services provided.

#### **(ii) Facial care segment**

GP from our facial care segment increased by RM22.75 million or 26.97% to RM107.10 million in FYE 2023 (FYE 2022: RM84.36 million), mainly driven by higher revenue generated from our existing and new *One Doc x Hair Doc* centres. GP margin for our facial care segment remained relatively consistent at 84.97% in FYE 2022 and 85.05% in FYE 2023.

#### **(iii) Hair care segment**

GP from our hair care segment increased by RM14.02 million or 30.95% to RM59.30 million in FYE 2023 (FYE 2022: RM45.29 million), mainly driven by higher revenue generated from our existing and new *One Doc x Hair Doc* centres.

GP margin for our hair care segment improved from 78.06% in FYE 2022 to 82.20% in FYE 2023, mainly attributed to higher-value hair care services provided. The average value per hair care service provided increased by 8.89% in FYE 2023, following the launch of a higher-priced hair care light pulse service during the financial year.

### **FYE 2024 compared to FYE 2023**

Our GP increased by RM31.50 million or 12.47% to RM283.96 million in FYE 2024 (FYE 2023: RM252.47 million), while our GP margin decreased from 83.49% in FYE 2023 to 81.84% in FYE 2024. This was mainly attributed to the following:

#### **(i) Body care segment**

GP from our body care segment increased by RM40.50 million or 47.06% to RM126.56 million in FYE 2024 (FYE 2023: RM86.06 million), mainly driven by higher revenue generated from our existing and new *Slim Doc* centres. In addition, the increase in GP was partly contributed by our new *Perfect Doc* centres.

GP margin for our body care segment improved from 82.48% in FYE 2023 to 83.95% in FYE 2024, mainly driven by higher-value body care services provided coupled with higher number of services provided during the financial year. The average value per body care service provided increased by 12.85% in FYE 2024, mainly due to an increase in the proportion of higher-value body care services provided.

## 12. FINANCIAL INFORMATION (CONT'D)

### (ii) Facial care segment

GP from our facial care segment decreased by RM6.84 million or 6.38% to RM100.27 million in FYE 2024 (FYE 2023: RM107.10 million), attributed to an increase in costs from this segment arising mainly from higher staff costs and depreciation costs. This was reflected in the increase in cost of sales of the facial care segment by RM4.29 million or 22.82% to RM23.11 million in FYE 2024 (FYE 2023: RM18.82 million).

The decrease in GP from this segment was also partly a result of a shift towards lower-value facial care services, which reduced revenue despite the higher number of services provided.

GP margin for our facial care segment decreased from 85.05% in FYE 2023 to 81.27% in FYE 2024. This was mainly attributed to higher average unit cost per facial care service provided coupled with lower-value facial care services provided to customers as discussed above. The average unit cost per facial care service provided increased by 11.93% in FYE 2024, following the additional capital expenditure on machineries and higher average headcount for beauty care centres in this segment. The decrease was also partly attributed to a shift towards lower-value facial care services provided during FYE 2024, as reflected in the decrease in average value per facial care service provided by 10.96% in FYE 2024.

### (iii) Hair care segment

GP from our hair care segment decreased by RM2.17 million or 3.65% to RM57.14 million in FYE 2024 (FYE 2023: RM59.30 million), attributed to the increase in costs from this segment arising mainly from higher staff costs and depreciation costs. The cost of sales of the hair care segment increased by RM2.85 million or 22.18% to RM15.69 million in FYE 2024 (FYE 2023: RM12.84 million).

GP margin for our hair care segment decreased from 82.20% in FYE 2023 to 78.46% in FYE 2024. This was mainly attributed to higher average unit cost per hair care service provided, which increased by 23.81% in FYE 2024, following the additional capital expenditure on machinery and higher average headcount for our beauty care centres in this segment.

### **FPE 2025 compared to FPE 2024**

Our GP increased by RM36.18 million or 26.89% to RM170.72 million in FPE 2025 (FPE 2024: RM134.54 million), while our GP margin remained relatively consistent at 83.60% in FPE 2024 and 83.33% in FPE 2025. This was mainly attributed to the following:

#### (i) Body care segment

GP from our body care segment increased by RM17.56 million or 30.93% to RM74.34 million in FPE 2025 (FPE 2024: RM56.78 million), as reflected in the higher revenue generated from our existing *Slim Doc* centres. GP margin for our body care segment remained relatively consistent at 85.16% in FPE 2024 and 85.01% in FPE 2025.

#### (ii) Facial care segment

GP from our facial care segment increased by RM9.58 million or 19.26% to RM59.34 million in FPE 2025 (FPE 2024: RM49.75 million), as reflected in the higher revenue generated from our existing and new *One Doc x Hair Doc* and *Perfect Doc* centres.

GP margin for our facial care segment decreased from 83.65% in FPE 2024 to 81.97% in FPE 2025. This was mainly due to a higher average unit cost per facial service provided, which increased by 10.81% in FPE 2025 arising mainly from higher staff

## 12. FINANCIAL INFORMATION (CONT'D)

costs and input product costs. The increases in staff and input product costs were mainly attributed to higher average headcount for our beauty care centres in this segment as well as promotional offers that included additional facial care sample products.

### (iii) Hair care segment

GP from our hair care segment increased by RM9.03 million or 32.22% to RM37.04 million in FPE 2025 (FPE 2024: RM28.02 million), as reflected in the higher revenue generated from our existing and new *One Doc x Hair Doc* centres.

GP margin for our hair care segment improved from 80.52% in FPE 2024 to 82.28% in FPE 2025, mainly attributed to higher-value hair care services provided. Please refer to **Sections 12.3.5 and 12.3.6** of this Prospectus for further details on our GP and other income respectively.

### **12.3.11 Significant factors materially affecting our operations and financial result**

The significant factors affecting our operations and financial results are set out below:

#### **(i) Number of beauty care centres**

We are principally a beauty care services provider where our sales are primarily derived from the sales of beauty care services and products from our beauty care centres. As such, our ability to generate and increase our revenue from our provision of beauty care services is mainly dependent on our ability to improve sales within each centre or increase the number of centres to expand our geographical coverage and provide ease of accessibility to a wider group of potential customers.

The breakdown of number of beauty care centres as at the end of the respective Financial Years/Period Under Review are as follows:

Number of centres by brands	As at 31 December			As at 30 June

## **12. FINANCIAL INFORMATION (CONT'D)**

Please refer to **Section 12.3.3** of this Prospectus for further details of the revenue of analysis of our beauty care services operations.

### **(ii) Staff costs**

We are principally involved in the provision of beauty care services where staff costs constitute one of the major components of our cost of sales for our beauty care centre operations. Staff costs for our beauty care centre operations include salaries, bonuses, statutory contributions and other expenses for our employees. Our staff costs may increase as we increase the number of beauty care centres to expand our business.

Our staff costs for our beauty care centre operations accounted for 52.70% (RM18.90 million), 54.63% (RM27.28 million), 54.35% (RM32.24 million), 59.24% (RM15.64 million), and 59.68% (RM20.38 million) of our total cost of sales for FYE 2022, FYE 2023, FYE 2024, FPE 2024 and FPE 2025 respectively. We pay our employees in accordance with applicable statutory minimum wage and any increases in the statutory minimum wage will result in the increase in our staff costs. The Minimum Wage Order 2022 was gazetted in 2022 with the initial implementation of minimum wage of RM1,500 took effect on 1 May 2022. The minimum wage was then revised to RM1,700 which was effective on 1 February 2025. As at the LPD, we have complied with the minimum wage rates since 1 May 2022.

As at the LPD, our centres have a total of 588 staffs, comprising centre managers, trained beauty therapists and supporting staff, of which 579 are domestic employees while the remaining are foreign employees.

### **(iii) Changing consumer preferences and shifts in market demands**

As a provider of beauty care services, we are susceptible to the changes in consumer behaviour, trends and brand preferences. The consumer spending in this segment is primarily discretionary in nature as customers may allocate this discretionary spending across different services or products from time to time or the consumers may also have the option not to utilise these services at all. As such, the sustainability and success of our business rely on our ability and agility to consistently adapt to changes in consumer behaviour and spending habits, trends and brand preferences, supported by our brand equity.

Consumer spending and behaviour are also influenced by general economic factors such as inflation and unemployment rates which would in turn affect the disposable income. Therefore, any adverse changes in the economic conditions, consumer spending and behaviour would adversely affect our business operations and financial performance.

Please refer to **Section 9.1.1** of this Prospectus for further details.

## 12. FINANCIAL INFORMATION (CONT'D)

### (iv) Lease of premises for beauty care centres

As at the LPD, we have a total of 57 beauty care centres including 53 centres in Malaysia and 4 centres in Singapore. All of our centres operate on tenanted premises. As such, we incur expenses and this constitutes one of the major operating expenses.

We generally enter into lease agreements with terms ranging 2 to 6 years. Please refer to Annexure C of this Prospectus for further details on our rented premises. Our lease agreements may be subject to review and revision by the landlords and these include increases in rental rates or non-renewal of lease agreements. In the event there are any adverse changes in the terms and conditions of the lease agreements or non-renewal of the lease agreements, it may adversely affect our financial results.

The expenses relating to lease of premises comprising depreciation of right-of-use assets and interest on lease liabilities accounted for 1.86%, 1.74%, 1.85%, 1.78% and 1.77% of our total revenue for FYE 2022, FYE 2023, FYE 2024, FPE 2024 and FPE 2025 respectively.

### (v) Impact of interest rates

All of our bank borrowings are interest-bearing. Therefore, any hikes in the interest rates would affect our financial performance. Our finance costs include interest charges on bank borrowings, which are credit and financing facilities granted by banks and financial institutions. As at 30 June 2025, our total bank borrowings of RM20.44 million consist of term financing facilities, term loans, fixed loans and hire purchase creditors. Any fluctuations in interest rates will have an impact on floating rate borrowings. Of the total RM20.44 million of our bank borrowings, RM19.13 million were interest bearing based on floating interest rates, while RM1.31 million were interest bearing based on fixed interest rates.

Our finance costs have been increasing from RM0.69 million in FYE 2022 to RM1.61 million and RM2.23 million in FYE 2023 and FYE 2024 respectively, and remained relatively consistent at RM1.09 million and RM1.10 million in FPE 2024 and FPE 2025 respectively. For the Financial Years/Period Under Review, our interest coverage ratio was 96.93 times, 75.63 times, 60.36 times, 61.24 times, and 84.80 times for FYE 2022, FYE 2023, FYE 2024, FPE 2024 and FPE 2025 respectively.

In this respect, any increases in the drawdown of our borrowings and/or interest rates may impact our financial performance. If we fail or encounter difficulties in meeting our financial obligations when they fall due, this will result in a financial distress condition which will affect our operations and financial performance. For the Financial Years/Period Review and up to the LPD, we have not defaulted on any payments of either principal or interests in relation to our bank borrowings.

### (vi) Impact of inflation pressure and other cost increases

As a consumer-based business, our products and services are subject to inflationary pressure which impacts our costs of goods and services, which we eventually will have to pass the increase in costs to our customers to at least maintain our margins. Inflationary pressure may arise directly from the cost of goods such as beauty care products and consumables as well as indirectly arising from increases in among others, staff wages and salaries, rental, utilities, and promotional and marketing costs.

Our financial performance for the Financial Years/Period Under Review was not materially affected by the impact of inflation. Nevertheless, there is no assurance that inflation may not affect our future results of operations and financial performance.

## 12. FINANCIAL INFORMATION (CONT'D)

Please refer to **Section 9.1.5** of this Prospectus for further details on risks in relation to inflationary pressure.

### (vii) Impact of prolonged epidemics or pandemics

As a multi-brand chain beauty care centre operator, we provide beauty care services which are not within essential services. In the event of any prolonged epidemics or pandemics, this may affect our business operations arising from the temporary suspension of operations due to containment measure implemented. The risks may include the temporary closure of our business operations and a drop in the patronage of our beauty care centres. All of these situations may adversely affect our business and financial performance.

Our beauty care centre operations were temporarily suspended following the implementation of various movement control orders by the Malaysian Government in 2020 and 2021. During this period, we were not allowed to provide beauty care services or sell of products at our centres. This affected all of our beauty care centres in 2020 and 2021.

### (viii) Government/economic/fiscal/monetary policies

Our business is subject to the risk relating to government, economic, fiscal or monetary policies in Malaysia and in countries that we operate and/or transact business. Any unfavourable changes in such government, economic, fiscal or monetary policies may materially affect our operations.

#### 12.3.12 Liquidity and capital resources

##### (i) Working capital

Our business operations were financed through a combination of internal and external sources of funds. Our internal sources of funds comprised shareholders' equity and cash generated from our operations, while external sources mainly consisted banking facilities from financial institutions. These funds were used to support our business operations and growth.

We recorded a net current liability position as at 31 December 2022, 2023 and 2024 and a net current asset position as at 30 June 2025 as summarised below:

	Audited as at 31 December			Audited as at 30 June 2025 RM'000
	2022 RM'000	2023 RM'000	2024 RM'000	
Current assets	150,043	212,603	290,677	375,357
Current liabilities	181,836	263,377	353,458	373,187
<b>Net current (liability)/asset position</b>	<b>(31,793)</b>	<b>(50,774)</b>	<b>(62,781)</b>	<b>2,170</b>

The net current liability position as at 31 December 2022, 2023 and 2024 was primarily due to contract liabilities, which are upfront payments received from customers for package sales of beauty care services and related products.

## 12. FINANCIAL INFORMATION (CONT'D)

We often sell our services in package deals, which require multiple visits by customers to our beauty care centres. These packages bundle various beauty care services and related products, and customers are required to pay the full package amount in advance. The packages are valid up to 12 months from the date of purchase. We may, at our discretion, allow customers to redeem unutilised package value beyond the 12-month validity period. Kindly refer to **Section 12.3.2** of this Prospectus for further details on the revenue recognition policy.

In relation to the contract liabilities, we also recognised contract costs assets, representing the incremental sales commissions incurred to obtain the sales contracts. These costs are amortised as selling and distribution expenses over the same period during which the related revenue arising from the contract liabilities is recognised, consistent with the progressive satisfaction of performance obligations.

The contract cost assets and contract liabilities will not impact our cash flow or working capital requirements when the related performance obligations are satisfied, as these assets and liabilities arise from commissions that have been paid to employees and upfront payments received from customers.

The net current liability position was also partly attributed to dividends paid to both ordinary shareholders and RCPS holders in FYE 2022 (RM25.00 million), FYE 2023 (RM67.53 million), and FYE 2024 (RM82.22 million).

As at 30 June 2025, our working capital position improved to a net current asset position at RM2.17 million. This was mainly attributed to higher cash and bank balances of RM283.58 million as at 30 June 2025 on the back of higher package sales of beauty services for the FPE 2025, as well as the absence of dividend payouts during the financial period.

For illustration purposes, after adjusting for contract cost assets, contract liabilities and dividend, we would have recorded a net current asset position as at 31 December 2022, 2023 and 2024 as well as at 30 June 2025 as follows:

	Audited as at 31 December			Audited as at 30 June

	RM'000	RM'000	RM'000	RM'000

<b>Adjusted net current asset position</b>	<b>117,111</b>	<b>193,950</b>	<b>256,782</b>	<b>257,275</b>

**Note:**

(1) The contract costs assets and contract liabilities as at 31 December 2022, 2023 and 2024 as well as 30 June 2025 will be recognised as sales and distribution expenses and revenue within the subsequent 3 financial years after the expiry of the 12-month validity period.

## 12. FINANCIAL INFORMATION (CONT'D)

- (b) Goods for resale comprising beauty care and related products.
- (c) Beauty care equipment prepared for the opening of our new centres.

Generally, we keep approximately 5 to 6 months of ready stocks as part of our inventory management practices. There were no inventories written down during the respective financial years/period.

## 12. FINANCIAL INFORMATION (CONT'D)

Our inventories turnover period increased from 144 days in FYE 2022 to 238 days in FYE 2023, mainly attributed to higher inventory levels of beauty care and related products for retail sales at our beauty care centres.

Our inventories turnover period decreased from 238 days in FYE 2023 to 215 days in FYE 2024. This was mainly attributed to lower inventory levels of input products for our beauty care service operations, driven by an increase in the number of beauty care services provided including body care and facial care services.

Our inventories turnover period decreased from 215 days in FYE 2024 to 186 days in FPE 2025. This was mainly attributed to lower inventory levels of input products for our beauty care service operations driven by an increase in the number of beauty care services provided, as well as lower beauty care and related products for retail sales at our beauty care centres.

### (iii) Current ratio

A summary of our current ratio for the Financial Years/Period Under Review is as follows:

	Audited			
	FYE 2022 RM'000	FYE 2023 RM'000	FYE 2024 RM'000	FPE 2025 RM'000

Current liabilities	181,836	263,377	353,458	373,187
Current ratio <sup>(1)</sup> (times)	0.83	0.81	0.82	1.01

#### Note:

(1) Based on current assets over current liabilities.

For FYE 2022, FYE 2023 and FYE 2024, our current ratio were less than 1.00 times where we experienced net current liabilities position at RM31.79 million (as at 31 December 2022), RM50.77 million (as at 31 December 2023), and RM62.78 million (as at 31 December 2024). This was mainly due to contract liabilities, which are upfront payments received from customers for package sales of beauty care services, which have yet to be rendered or redeemed by customers.

For FPE 2025, our current ratio increased to 1.01 times, mainly due to higher cash and bank balances as at 30 June 2025, supported by higher revenue from our existing and new beauty care centres in FPE 2025. In addition, there were no dividend payouts during FPE 2025.

Please refer to **section 12.3.12** for further details of the working capital.

Revenue is recognised upon services rendered and products delivered. The contract liabilities for the Financial Years/Period Under Review are set-out below:

As at the LPD, save for certain banking restrictive covenants which our subsidiaries are subject to, there are no dividend restrictions imposed on us or our Subsidiaries.

Investors should note that this merely describes our present intention and shall not constitute legally binding statements in respect of our Company's future dividends which are subject to modification (including non-declaration thereof) at our Board's discretion. We cannot assure you that we will be able to pay dividends or that our Board will declare dividends in the future. There can also be no assurance that future dividends declared by our Board, if any, will not differ materially from historical dividend levels. ## 12. FINANCIAL INFORMATION (CONT'D)

### 1.0 PRO FORMA GROUP AND BASIS OF PREPARATION

#### 1.1 INTRODUCTION

The Pro Forma Combined Statements of Financial Position together with the notes thereon, for which the Directors of 1 Doc International Berhad ("1 Doc International" or "Company") are solely responsible, have been prepared for illustration purposes only, for the purpose of inclusion in the Prospectus in connection with the proposed listing and quotation for the entire enlarged issued share capital of 1 Doc International on the Main Market of Bursa Malaysia Securities Berhad ("Bursa Securities") ("the Proposed Listing").

#### 1.2 BASIS OF PREPARATION

The applicable criteria on the basis of which the Directors have compiled the Pro Forma Combined Statements of Financial Position are as described below. The Pro Forma Combined Statements of Financial Position are prepared in accordance with the requirements of Chapter 9 of the Prospectus Guidelines issued by the Securities Commission Malaysia and the Guidance Note for Issuers of Pro Forma Financial Information issued by the Malaysian Institute of Accountants.

The Pro Forma Combined Statements of Financial Position of 1 Doc International and its combining entities ("the Group") have been prepared in a manner consistent with the format of combined financial statements of the Group and the accounting policies adopted by the Group, in accordance with the Malaysian Financial Reporting Standards ("MFRSs") and International Financial Reporting Standards ("IFRSs").

The Pro Forma Combined Statements of Financial Position have been prepared based on audited combined financial statements of the Group for the financial period ended 30 June 2025 which consist of the following entities:

- i) 1 Doc International
- ii) 1 Doc Holding Sdn Bhd ("1DHSB")
- iii) Slim Doc Sdn Bhd ("SDSB")
- iv) Slim Doc SG Pte Ltd ("SDSG")

The Group is regarded as a continuing entity resulting from the pre-initial public offering ("pre-IPO") exercise as set out in Note 1.3.2 because the shareholders of all the entities within the Group, which took part in the pre-IPO exercise, were under the common control before and immediately after the pre-IPO exercise. Accordingly, the Group has applied the merger method of accounting on a retrospective basis as if the merger had been effected throughout the current financial period.

When the merger method is used, the difference between the costs of investment recorded by 1 Doc International and the aggregate share capital of 1DHSB, SDSB and SDSG is accounted for as merger reserve in the Pro Forma Combined Statements of Financial Position.

The Pro Forma Combined Statements of Financial Position, because of their nature, may not reflect the Group's actual financial position. Further, such information does not predict the Group's future financial position.

The Pro Forma Combined Statements of Financial Position of the Group comprise the combined statements of financial position as at 30 June 2025, adjusted for the impact of the Material Subsequent Transactions and Proposed Listing Scheme as set out in Note 1.3 and Note 1.4 respectively to the Pro Forma Combined Statements of Financial Position.
